

Promotes pain-free removal of adhesives,
minimising trauma and reducing skin damage

Maintain skin integrity by reducing adhesive trauma

- REMOVE[®] wipes assist in the non traumatic removal of acrylic based and hydrocolloid based adhesives and residue
- Contains aloe formulation which soothes and moisturises the skin
- Non-sensitising and non-irritating
- Pleasant fragrance with no harsh odour

Quality ingredients

REMOVE is ideal for use with wound care and adhesive products. It removes hydrocolloid, acrylic and rubber based medical adhesives. Formulated with high-quality ingredients, REMOVE helps maintain proper skin integrity as it dissolves adhesive products and residue.

Maximum comfort for patients

REMOVE will not traumatise skin. It gently cleans and promotes pain-free removal of adhesive residue from the skin, minimising irritation and discomfort. REMOVE is specially formulated with aloe to moisturise and condition skin, to help maintain skin integrity.

Convenient and cost-effective

REMOVE is easily applied. It is available in individual foil packets with convenient-to-carry, single use wipes.

Application

Hold saturated wipe at the edges of tape or appliance. Squeeze gently so that fluid flows between skin and adhesive. Cleanse with water and pat dry.
